# NEWSLETTER

**October 1-15, 2005**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1-15, 2005.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, October 03, 2005</u></b>			
2005104002	Implementation of the Army Residential Communities Initiative of Moffett U.S. Army Mountain View--Santa Clara The purpose of the proposed action is to improve family housing and ancillary supporting facilities within the RCI project. The proposed action is needed to provide affordable quality housing and ancillary facilities to soldiers and their families. Under the proposed action this would be accomplished through the transfer of Shenandoah Square property to provide funds that would allow a combination of new and renovated existing family housing units within the RCI project in order to meet current Army housing standards.	<b>EA</b>	11/02/2005
1992122069	Tracy General Plan Update Tracy, City of Tracy--San Joaquin Comprehensive General Plan Update	<b>EIR</b>	11/16/2005
2004051039	Robertson Ranch Master Plan-EIR 03-03 Carlsbad, City of Carlsbad--San Diego Discretionary actions for the first phase of development will include Certification of the Program EIR, Master Plan, Local Facilities Management Plan amendment, Master Tentative Map for the East Village, Special Use Permit (Floodplain), and Hillside Development Permit. The proposed Master Plan would provide 1,176 dwelling units (with alternatives allowing up to 1,383 dwelling units) of varying densities. At least 15% of the units are required to be affordable to lower income households to meet the City's inclusionary housing requirements.	<b>EIR</b>	11/16/2005
2005072047	Olson Company Townhome/Retail Mixed Use Project Alameda County --Alameda The proposed project includes the demolition of the existing buildings on the project site and the development of 99 townhome units and approximately 4,500 square feet of retail space.	<b>EIR</b>	11/16/2005
2005104001	Ukiah Draft Resource Management Plan and Draft EIS Bureau of Land Management Ukiah--Lake, Mendocino, Colusa, Napa Draft resource management plan for lands managed by the BLM's Ukiah Field Office. the plan will be comprehensive, addressing all resources and uses on the public lands in the planning area.	<b>EIS</b>	12/16/2005
1999091108	Long Beach Sports Park Long Beach, City of Long Beach--Los Angeles The City of Long Beach proposes to develop a pay-for-play Sports Park, a youth golf center, and to rezone a portion of the +/- 55-acre project site for future commercial (retail/office) use. The project includes an application for a General Plan amendment, zone changes, conditional use permit, a standards variance for parking, and a Tentative Parcel Map that will create separate parcels for the outparcel (not a part) and future commercial uses. The City's intent is to acquire and retain ownership of the assembled project site, with the exception of the commercial parcel on the corner of Spring Street and California Avenue, and to use	<b>FIN</b>

	contract operators to manage the facilities.		
2001112025	Laguna Vista Sebastopol, City of Sebastopol--Sonoma Project includes 115 for-sale units, of which 8 would be live-work units, and 30 affordable apartments. 9.53 acres of the site would be dedicated as permanent open space.	<b>FIN</b>	
2004111132	City of San Bernardino General Plan Update and Associated Specific Plans EIR San Bernardino, City of Highland, Colton, Loma Linda, Redlands, Rialto--San Bernardino The proposed project consists of a comprehensive update to the City's General Plan. As part of the GP update the City is processing two specific plans: Arrowhead Springs Specific Plan and the University District Specific Plan.	<b>FIN</b>	
2005054005	Alexander Village and Alexander Vista Estates Agua Caliente Band of Cahuilla Indians Palm Springs--Riverside 119 single-family residential lots on approximately 36 acres comprised of Fee Land, Tribal Land and Allotted Land within the Agua Caliente Indian Reservation.	<b>JD</b>	11/01/2005
2005101007	Whiteside Redevelopment Project Area Los Angeles County Community Development Commission Alhambra, Los Angeles, City of, Monterey Park--Los Angeles The Community Development Commission of Los Angeles County (LACDC) will be the Lead Agency for the preparation of an environmental impact report (EIR) for the proposed Whiteside Redevelopment Area plan approval. The proposed area is located within the City Terrace portion of the County of Los Angeles commonly referred to as "Whiteside" located along the Interstate 10 Fwy west of the Interstate 710 Fwy.	<b>NOP</b>	11/01/2005
2005102003	Joe's Travel Plaza Expansion Lathrop, City of Lathrop--San Joaquin The project site is comprised of two separate parcels totaling approximately seven acres. One Parcel is currently vacant and the other is developed with the existing Joe's Travel Plaza, which consists of an existing mini mart, four automobile fuel pump islands, six truck fuel pump islands and a truck scale. The project proposes four additional automobile fuel pump islands and a new canopy, five additional truck fuel pump islands and an extension of the existing canopy, a truck wash facility and a three-story, 81-room hotel. In addition, two new driveways would be provided for the hotel off Thomsen Road, one existing driveway on Harlan Road would be widened and one additional driveway would be provided on Harlan Road to serve the expanded Joe's Travel Plaza.	<b>NOP</b>	11/01/2005
2005102005	California Correctional Center Wastewater Treatment Plant Improvement Project Corrections, Department of Susanville--Lassen The California Department of Corrections and Rehabilitation proposes to construct improvements to its existing wastewater treatment plant (WWTP) at the California Correctional Center (CCC). The facility treats waste from both the CCC and the adjacent High Desert State Prison. The existing WWTP and proposed improvements are located east of the City of Susanville in Lassen County, California.	<b>NOP</b>	11/01/2005

<b><u>Documents Received on Monday, October 03, 2005</u></b>			
2005102009	Sylva Shores West Sacramento, City of West Sacramento--Yolo The Sylva Shores project includes the development of 30 single-family dwelling units on 6.38 +/- acres. The requested entitlements for the project include adoption of a MND, the approval of a Tentative Subdivision Map, approval of a density bonus, adjustment of development standards (the "planned development" permit), right-of-way abandonment, and an irrevocable offer of dedication of Lot A.	<b>Neg</b>	11/01/2005
2001052072	2027 Regional Transportation Plan (RTP) Supplemental Program EIR Placer County --Placer The Placer County Regional Transportation Plan 2027 (RTP) documents the policy direction, actions, and funding recommendations that are intended to meet the short and long range needs of Placer County's transportation systems over the next twenty years. This document is designed to be a guide for the systematic development of a balanced, comprehensive, multi-modal transportation system for the current and future needs of Placer County. The RTP fulfills the state requirements of AB 402 (Government Code Title 7, Chapter 2.5, Sections 65080-65082).	<b>NOD</b>	
2002092025	Wilbur Springs Road Bridge Replacement Colusa County Williams--Colusa The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0326-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Colusa County Public Works.  Removal of the existing historic bridge over Bear Creek, relocation of the same bridge over Sulphur Creek at Wilbur Hot Springs Resort, and construction of a new bridge over Bear Creek.	<b>NOD</b>	
2003061029	Hanford Station Planned Commercial Development Hanford, City of Hanford--Kings The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Wal-Mart Stores, Inc., Sam Walton Development Complex. The applicant proposes to develop commercial and retail facilities on the project site, which will encroach into Mussel Slough. To offset the loss of 0.60 acres of wetland habitat that will be impacted by the project, a 1.71 acre detention-filtration pond will be constructed adjacent to the slough, with 1.4 acres of the area planted in riparian trees and shrubs. Plantings will be monitored for success for five years.	<b>NOD</b>	
2004042073	Proposed Napa Valley College Facilities Master Plan Napa Valley College Napa--Napa The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0578-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Miguel Silva / Powerlight Corporation. The operator proposes the installation of a Powertracker photovoltaic solar panel array in the open field in the southwestern portion of the Napa Valley College campus, south of the existing ballfields, Napa. The panels will occupy approximately 7 acres, stationed on piers, and situated from about 5 to 12 feet	<b>NOD</b>

<b><u>Documents Received on Monday, October 03, 2005</u></b>			
	of up to 200 detached single-family homes (detached homes), varying in size from 1,450 to 2,900 square feet (sf). The remaining six communities would be developed on approximately 21.8 acres of the project site and would have densities ranging from 12 to 28 du per acre. These six communities would accommodate up to 450 attached single-family townhomes (attached homes), varying in size from 1,230 to 1,680 sf. All residential units would be for-sale market rate housing. The remaining 10.6 acres of the project site would consist of roadways and park and landscape areas (described below). The detached homes would consist of a mixture of two- and three-story houses, extending in height from 28 feet (two-story house) to 35 feet (three-story house). The attached homes would reach 38 to 40 feet in height. All homes would be wood-framed with stucco exterior walls and incorporate an earth-tone palette. All homes would have various architectural styles (i.e., Santa Barbara, Craftsman, etc.) and floor plans (i.e., two or three story, three or four bedroom).		
2005042095	California Department of Fish & Game - Year 2005 - Fisheries Restoration Grant Program Projects Fish & Game #2 --Siskiyou The project proposes the installation of 400 feet of the north bank of the East Fork Scott River. Flow will be diverted away from the main channel to allow instream installation of rock weirs and bioengineered bank protection including large woody debris and live cuttings, and flow will then be restored to the channel.	<b>NOD</b>	
2005072074	Creation of Two (2) Additional Hickey Boulevard Lots Pacifica, City of Pacifica--San Mateo The City of Pacifica intends to carve two (2) lots out of a larger City-owned parcel. The lots are located at 635 Hickey Boulevard and are presently portions of Parcels J and K: the intended lots are shown on the attached site plan. The City's ultimate intent is to declare those lots surplus and offer them for sale to private parties in the event no qualified entities respond to the City's surplus property notices. In order to proceed in a timely manner, the City desires to create the lots through a record of survey rather than a parcel map. The City has considered various uses for the lots, and intends to bring them into alignment with the residential nature of the area. Even though a rezoning and General Plan amendment would be required to allow residential development on the lots, that use would be consistent with the surrounding area. The area of each new lot will be more than 5,000 square feet (6,350 and 7,112 square feet, respectively) and will have a frontage of 50 feet or greater thus satisfying residential zoning provisions as to lot size and frontage.	<b>NOD</b>	
2005082077	Villas at Harborside (PEAQ 2005 0136) Placer County Planning Department --Placer Conditional Use Permit to allow for the construction of nine fractional ownership residential units on three lots; and a variance to front setback requirements to construct a fence, entry gates, carports, and parking spaces.	<b>NOD</b>	
2005109001	Beldon, Eva, Alta, Long Bar Placer Mining Claim U.S. Forest Service --Plumas Gold mining on terrace, and water drafting.	<b>NOD</b>

2005109009	Lake or Streambed Alteration Agreement (Agreement) No. 05-0235 for Timber Harvesting Plan (THP) 1-05-141 HUM Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the installation of 15 permanent culverts, and the installation of one bridge.	<b>NOD</b>	
2005109010	Lake or Streambed Alteration Agreement (Agreement) No. 05-0354 for Timber Harvesting Plan (THP) 1-02-116HUM Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the replacement of one permanent culvert with a rocked ford.	<b>NOD</b>	
2005109011	Lake or Streambed Alteration Agreement (Agreement) No. 05-0244 for Timber Harvesting Plan (THP) 1-05-117HUM Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the installation and removal of three temporary crossings and the installation of two permanent culverts.	<b>NOD</b>	
2005109012	Lake or Streambed Alteration Agreement (Agreement) No. 05-0311 for Timber Harvesting Plan (THP) 1-05-112HUM "Full Boat" Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the installation of one permanent culvert and one temporary crossing, the installation or reconstruction of seven rocked fords, and the removal of three Humboldt tractor crossings.	<b>NOD</b>	
2005109013	Lake or Streambed Alteration Agreement (Agreement) No. 05-0310 for Timber Harvesting Plan (THP) 1-01-359HUM Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the installation of one permanent culvert.	<b>NOD</b>	
2005109014	Lake or Streambed Alteration Agreement (Agreement) No. 05-0304 for Timber Harvesting Plan (THP) 1-05-097HUM Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game is issuing an Agreement for the installation of one permanent culvert.	<b>NOD</b>	
2005108001	Mill Creek, Talmage Dam Temporary Repair Fish & Game #3 --Mendocino The proposed project involves temporary repairs to the Upper Dam in the Talmage area on Mill Creek, tributary to the Russian River. Mill Creek is an anadromous tributary to the Russian River with a series of three historical dams. In December of 2004, Mendocino County, Department of General Services (County) personnel opened the base valves at the Upper Talmage dam and were unable to close them. The County of Mendocino shall repair the existing valve and install a standpipe, creating a sediment basin within the resource. This short-term project is designed to prevent additional sediment discharges from occurring in the impending 2005/06	<b>NOE</b>

<b><u>Documents Received on Monday, October 03, 2005</u></b>			
2005108104	Kobe Precision, Inc., Reissuance of NPDES Permit No. CA0030112 Order No. R2-2005-0040 Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Hayward--Contra Costa Waste Discharge Requirements permit Kobe Precision, Inc., to discharge 200,000 gallons per day of treated effluent to a tributary of Alameda Flood Control Channel. The effluent originates from reverse osmosis units that remove minerals from tap water.	<b>NOE</b>	
2005108105	Maintenance Dredging at the Port Sonoma Marina Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Petaluma--Sonoma Maintenance dredging of up to 80,000 cubic yards of sediment per year over a five-year period, to a project depth of -6 feet Mean Lower Low Water (MLLW), with a one-foot overdredge allowance. The dredged material will be used to raise the elevation and enhance farming potential on upland agricultural land across Highway 37 from the marina known as the Carneros River Ranch (under a separate Board Waste Discharge Requirements order for dredged material placement and decant water management).	<b>NOE</b>	
2005108106	Verizon Wireless Collocation Facility (Excelsior Avenue) Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a collocation wireless facility consisting of the replacement of 3 additional panel antennas at the 60 foot elevation on an existing 95-foot tall monopole tower in the AR-2 zone.	<b>NOE</b>	
2005108107	Madison Avenue Triplex Use Permit, Parcel Map Variance and Exception Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a triplex and an existing single-family residential dwelling on 0.70+/- net acres on BP zoned property. The project also includes a Tentative parcel map to divide 0.91+/- gross (0.70+/- net) acres into two (2) lots on property zoned BP. A Variance to reduce the public street frontage from 60 feet to 0+/- feet for proposed Lot 2 (section 315-41(a)). An Exception to reduce the required street setback for structures from private streets from 25 feet to 21+/- (Section 305-12).	<b>NOE</b>	
2005108108	Mather Get "H" Groundwater Treatment Project Sacramento County Water Agency Rancho Cordova--Sacramento The project consists of the construction of groundwater treatment plants by Aerojet and Boeing/McDonald Douglas on a site owned by the Sacramento County water Agency. The plant will serve as a long term, central facility for treatment and discharge of groundwater conveyed to the site by underground pipelines from a number of groundwater extraction wells installed in rancho Cordoval. This water will contain relatively low concentrations (less than one part per million) of chemicals of concern, including perchlorate and volatile organic compounds, primarily trichloroethylene. This project is an element of groundwater clean-up program approved by the State Department of Toxic control and for which a NPDES permit has been issued.	<b>NOE</b>

2005032125	Adoption of the Napa Valley Transportation Authority Sales Tax Ordinance and Transportation Improvement Expenditure Plan Napa County --Napa The purpose of the Authority is to provide a mechanism by which Napa County may raise additional local revenues to provide highway capital improvements and maintenance and to meet local transportation needs in a timely manner. Revenue of the Authority is raised by the voter approved imposition of the retail transaction and use tax ordinance (2/3rds voter approval required), not to exceed one-half of one percent. The funds raised are used to supplement and not replace existing local revenues used for transportation purposes. The Authority is the entity responsible for overseeing the expenditure of these supplemental transportation funds. The funds are to be spent in accordance with an approved county transportation expenditure plan, which lists those projects what may be eligible for supplemental funding.	<b>NOP</b>	11/02/2005

2004082100	Downtown Vallejo Draft Specific Plan Virginia Street Development Vallejo, City of --Solano The Downtown Vallejo Specific Plan and accompanying Downtown Design Guidelines covers a 98-acre, 20-square-block area of Downtown Vallejo. The Plan and Guidelines are intended to implement a vision to promote revitalization and increased use of this area. The Plan and Guidelines proposes new land use regulatuions and deisgn guidelines, which will: a) broaden the types of land uses and urban densities that could be developed in the Downtown area; b) facilitate new arts and entertainment land uses; c) promoted increased retail and employment use in the Downtown area; and d) implement streetscape design concepts and measures to improve pedestrian use, scale and safety. The Virginia Street development project is one of several catalyst sites proposed for development within the Specific Plan area. This development project involves the construction of a 5-7-story building with 150 residential units (condominiums), eight ground floor live-work units and 11,500 square feet of ground floor commercial retail space.	<b>NOD</b>	
2005021028	Trubschenck / Pelonis / Douglas New SFD Santa Barbara County --Santa Barbara The project involves construcion of a single family residence, driveway and associated outbuildngs on 0.19 acres of a 113 acre land parcel. The project will result in impacts to Gaviota tarplant (Deinandra increscens ssp. villosa) which is protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit.	<b>NOD</b>	
2005051153	Grossmont Trolley Court Apartments La Mesa, City of La Mesa--San Diego The proposed project would consist of a 527-unit multi-family residential development with supporting commercial retail uses, recreational facilities and two above-ground parking garages on a 7.5-acre site. The project also would include improvements to the existing Grossmont Trolley Station, off-site flood control improvements to the Alvarado Creek channel, landscape/hardscape improvements, on- and off-site utility improvements and a street vacation.	<b>NOD</b>	
2005072065	Bicycle Master Plan General Plan Amendment Fremont, City of Fremont--Alameda The City of Fremont proposes to amend Chapter 8 of the Fremont General Plan consistent with it's recently prepared Bicycle Master Plan. The proposed plan is intended to function as a master document in providing direction and guidance in development of the City's bicycle facilities. The Master Plan provides for a citywide system of bike lanes, bike routes, bike paths, bicycle parking, and other facilities to allow for safe, efficeient and convenient bicycle travel within Fremont and connection to destinations in adjacent cities. This plan is consistent with the Fremont General Plan goal of "providing convenient alternatives to the automobile to conserve energy, reduce congestion, improve air quality and provide a variety of transportation choices to meet a variety of needs." The proposed revisions to the plan incorporate and reference guidelines and policies of the City, Alameda County. California Department of Transportation (Caltrans), and the Metropolitan	<b>NOD</b>

	Transportation Commission.		
2005072092	Renewal of San Joaquin County as a State-Designated Recycling Market Development Zone San Joaquin County Escalon, Lathrop, Lodi, Manteca, Ripon, Stockton, Tracy, ...--San Joaquin Renew San Joaquin County as a state-designated Recycling Market Development Zone, which provides incentives to stimulate the development of post-consumer and secondary materials markets as well as establishing, sustaining, and expanding recycling-based manufacturing businesses, which is essential for market development and meeting landfill reduction goals.	<b>NOD</b>	
2005082100	KTRB Radio Station Transmitter and Towers Alameda County --Alameda Construction and operation of a 50,000 watt AM radio transmission facility for radio station KTRB, including four towers 190 feet in height, associated piers, anchors, four equipment structures and one transmitter building, fencing, counterpoises, ground systems, a 16-foot wide access road, and various ancillary communications services. These facilities would cover approximately 22 acres.	<b>NOD</b>	
2005089085	Palm Springs Main Well Field Desert Water Agency Cathedral City, Palm Springs--Riverside The project consists of the construction and operation of eight well pumping plants along with associated piping and appurtenances.	<b>NOD</b>	
2005108138	Bank Repair Fish & Game #3 Danville--Contra Costa The project includes bank repair using A-jacks and rip rap along with native grasses and shrubs. Issuance of a Streambed Alteration Agreement Number 1600-2005-0509-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2005108139	Mae Boyar Playground Upgrades Rancho Simi Recreation and Park District --Ventura The existing playground at Mae Boyar Park was installed in 1988. It consists of a tot structure, preteen structure, swings, and tot spring animals. The 17-year-old structure does not meet either current Consumer Projects Safety or the Americans with Disabilities Act standards. Due to the structure's age, replacement parts are unavailable, resulting in several of the play elements having to be modified or abandoned.  The existing 5,000 sq. ft. playground is located between the park's recreation building and the tennis courts. Due to fall zone requirements, the playground will be relocated slightly to the north (approximately 30 feet), next to three existing picnic tables and surrounded by several mature trees. The upgraded 6,400 sq. ft. playground will consist of a tot structure, preteen structure, swings and tot spring animals.  As part of the project, one ash tree which is currently in a state of decline will be removed. Also as part of the project, the existing playground will be irrigated, and turf and three trees added. Additionally, five trees will be added around the new playground structure.	<b>NOE</b>

2005108149	Murphy Culvert and Gravel Road Fish & Game #2 --El Dorado Installation of one 16" culvert and the construction of a gravel road to cross a seasonal watercourse.	NOE	
2005108150	Emergency Repair of Existing Downdrain Caltrans #1 Arcata--Humboldt An existing 18-inch diameter x 40-ft long CSP down-drain, located at post mile 86.62 on route 101 in Humboldt County, is failing and in need of immediate repair. The down-drain, which carries a small amount of run-off from adjacent City of Arcata streets down into the highway drainage system, has a completely perforated invert with a large scour hole immediately below the pipe. The scour hole is 5-ft wide and 5-ft deep and runs almost the entire length of the facility. Due to the type of soil that the embankment is constructed of, the scour hole has eroded in such a manner that the walls of the scour hole are remaining vertical, but the depth of the hole is continuing to increase. Immediately below the current vertical limits of the scour hole is a city of Arcata sewer main line. The line is an 8-in diameter Vitrified Clay pipe, which is quite susceptible to breaking whenever unequal forces are applied. This type of conduit has little to no ductility. The City has contacted Caltrans and voiced their concerns regarding the existing facility and how it is placing their sewer line in jeopardy. The facility must be urgently replaced before the upcoming winter rains.	NOE	
2005108151	Capital Maintenance Work Caltrans #2 --Tehama The California Department of Transportation and Federal Highway Administration will perform capital maintenance work on a portion of I-5, including the ramps, in Tehama County. Work will include laying a 30 mm open graded AC overlay, fog sealing paved shoulders, upgrading and extending metal beam guardrails, removing and replacing pavement on selected bridges, and replacing all pavement delineation's and pavement markers. All work will remain within the hinge points. Equipment staging and material stockpiling may occur in the landscaped areas at any on-off ramps between the ramps and the travel lanes within the project limits. The median may also be used for staging/stockpiling within the project limits. This project will have no significant effects on the environment.	NOE	
2005108152	AC Overlay Shasta 5 Caltrans #2 --Shasta The California Department of Transportation and Federal Highway Administration will place an open-grade 30 mm AC Overlay on a portion of I-5, including the ramps, in Shasta County. The work will include digout repair, fog sealing paved shoulders, upgrading and extending metal beam guard rails, removing and replacing pavement on selected bridges, and replacing all pavement delineation's and pavement markers. All work will remain within the hinge points. Equipment staging and material stockpiling may occur in the landscaped areas at any on-off ramps between the ramps and the travel lanes within the project limits. The median may also be used for staging/stockpiling within the project limits. This project will have no significant effects on the environment.	NOE

2005012119	Parkerbridge Project EIR (P04-212) Sacramento, City of Sacramento--Sacramento EIR for residential development of approximately 531 low density and medium density residential units.	EIR	11/21/2005
2003121001	The Springs Commercial Center Palm Springs, City of Palm Springs--Riverside Geiger, LLC, has proposed entering into a Disposition and Development Agreement with the City of Palm Springs Community Redevelopment Agency (CRA) to develop approximately 393,000 square feet of retail/commercial uses on approximately 37-acres of vacant land, located at the northeast corner of State Route 111 (more commonly known as Gene Autry Trail) and Ramon Road in the City of Palm Springs, California. The subject property is the site of a former landfill, which accepted predominantly household refuse and construction waste from the early 1930's until the mid 1960's. A Removal Action Workplan (RAW) has recently been completed for the site, which involved remediation of the buried refuse within the site and associated site restoration activities. The landfill material was removed, soil was mined from the basement and landfill material and mining material was re-deposited into a cell, recompact, and rough graded. Consequently, the project is considered a redevelopment project which proposes construction of a mix of commercial retail uses on site, including up to ten major commercial stores ranging in size from 14,700 to 117,200 square feet, 4 retail stores between 6,000 and 12,600 square feet, and 4 restaurants from 3,200 to 9,600 square feet. The proposed project is being pursued through a Planned Development District Permit (PDD) and Tentative Tract Map (TTM) and is consistent with the "floating dot" Neighborhood Convenience Center (NCC)	FIN

2005102020	Balloon Launching Facility (#CDP05-0177) Napa County Yountville--Napa Board of Supervisors action to establish a balloon launching facility. About 10-15 balloons per day could launch from the facility, and the site is estimated to be used in the range of 175-275 days/year. Access would be allowed only after 5:30 AM and shall conclude around 9 AM and would be controlled to authorized operators by a locking device. Balloon companies would bring passengers and balloons to the site by vans and balloon carry vehicles (no private passenger cars).	<b>Neg</b>	11/04/2005
2005102021	Stony Point Road at Roblar Road Signalization Project Sonoma County Cotati--Sonoma The Department of Transportation and Public Works proposes to signalize the intersection of Stony Point and Roblar Road. The project also includes extending the existing left-turn lane onto Roblar Road by increasing the distance for vehicles to decelerate and stack, while waiting to turn. The paved shoulders will need to be slightly widened to allow for appropriate space for vehicle and truck turning movements through the intersection. A left turn lane will also be provided for the residence that has a driveway nearly opposite from Roblar Road.	<b>Neg</b>	11/04/2005
1992052124	North Stockton III Annexation Project (EIR4-91) Stockton, City of Stockton--San Joaquin (1) Authorizing the City Manager to file with the Local Agency Formation Commission (LAFCo) the above-noted annexation; detachment from the Lincoln Fire Protection District and San Joaquin County Resource Conservation District; and related City Services Plan for approximately 208 acres located on the south side of Eight Mile Road, between Lower Sacramento Road and the Union Pacific Railroad tracks.	<b>NOD</b>	
2002011114	Specific Plan No. 2001-01: North Park Village and Nature Preserve Moorpark, City of Moorpark--Ventura The specific plan project would allow for the development of 1,680 residential dwelling units (including 180 affordable units) on approximately 749.1 acres of the 3,586.3-acre site. Other related and supporting uses would include a 5- to 6.5-acre neighborhood commercial center (70,000 sq. ft. of commercial floor area), an 18-acre school site, a 27.3-acre public community park, 2 other public parks, 9 private parks, a 52-acre publicly accessible lake, a 1.5-acre fire station site, and a 0.6-acre day care site. A 2,160-acre Nature Preserve and approximately 435 additional acres of open space are a part of the project. Ancillary land uses would include, but are not limited to, water reservoirs, detention basins, and a fire service helispot. The Specific Plan project proposes that a new interchange with the SR-118 freeway be constructed about 1 mile east of the Collins Drive interchange. A four-lane arterial roadway would connect the interchange to the Specific Plan site and provide direct access into Moorpark College. The applicant is also seeking annexation of the site into the City of Moorpark.	<b>NOD</b>

2005108159	Chipping Program, Lat. 38.9235N, Long. 120.0161 Lake Valley Fire Protection District --El Dorado Provide the personnel and equipment to assist community members in their efforts to reduce fuel loading on their property through chipping of smaller fuels. This will consist of 3 seasonal crewmembers available 4-5 days per week, a wood chipper and tow vehicle traveling through the community, chipping fuels, which have been removed from property and placed adjacent to county roads. The chips produced will be left on site for utilization as mulch.	<b>NOE</b>	
2005108162	Maintenance Dredging at Marin Rowing Association Launching Dock Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Marin Maintenance dredging of approximately 2,500 cubic yards of sediment to a project depth of -6.0 feet mean lower low water, with a 1-foot overdredge allowance. The dredged material will be disposed of at either the Alcatraz (SF-11) or the San Pablo Bay Disposal Site (SF-10) in San Francisco Bay.	<b>NOE</b>	
2005108163	Conveyance of Refuge Water Supplies to the East Bear Creek Unit of the San Luis National Wildlife Refuge Project Regional Water Quality Control Board, Region 5 (Central Valley) --Merced The U.S. Bureau of Reclamation proposes to construct a pump station at Bear Creek. The intake to the pump station will be within the banks of Bear Creek. The project also involves construction of a two-mile long pipeline from the pump station south to the southern levee of the East Bear Creek Unit of the refuge. The intended purpose of the project is to develop or improve water delivery facilities to enable reliable, year-round delivery of water supplies to the East Bear Creek Unit to support habitat restoration.	<b>NOE</b>	
2005108164	Sneaker Beach Temporary Group Camp (05/06-CD-05) Parks and Recreation, Department of -- The area of the Salton Sea State Recreation Area known as Sneaker Beach, just north of State Parks headquarters, has historically been a day use area. It currently has one portable chemical toilet and a paved parking area measuring approximately 35 feet wide by 150 feet long. The proposed project will add one additional portable chemical toilet to the parking lot, and three fire rings and six picnic tables to the beach. The use of the area will be changed from day use only to a temporary primitive group camping area.	<b>NOE</b>	
2005108165	Northside Stonewall Trail Repair (05/06-CD-06) Parks and Recreation, Department of --San Diego The project will repair the Stonewall Peak Trail on the north side of Stonewall Peak. This trail runs from the California Riding and Hiking Trail to the hitching post near the peak. The work involves the rerouting of a short section of trail out of a drainage, new tread construction associated with this reroute, and restoration/reconstruction of original trail tread along portions of the existing trail. Due to sensitive archaeological artifacts in the vicinity of the trail, on-site dead wood and brush will be placed adjacent to portions of the trail to discourage off-trail travel, and to protect the cultural resources. A State Parks archaeologist will direct the placement of barriers. The trail will be monitored by State Parks staff and/or volunteers over the next year to assess any off-trail use by park visitors, and to	<b>NOE</b>

	doucment that describes the Bay Area's strategy for compliance with State one-hour ozone standard planning requirements, transport mitigation requirements, and is a significant component of our region's commitment to achieving clean air to protect the public's health and the environment. The strategy aims to reduce emissions of ozone-forming pollutants from transportation sources, industrial facilities, commercial processes and other sources.		
2003072045	State Route 20 Rehabilitation Project Caltrans Colusa--Colusa, Sutter The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0429-R2 pursuant to Section 1602 of the Fish and Game Code to the project operator, Harold Heikens for California Department of Transportation:	FIN	
	The project consists of pavement overlay, shoulder widening, intersection upgrading and profile lift, and construction of two-way left turn lanes and passing lanes.		
2005042152	Proposed Land Acquisition and Facilities Construction for Esparto High School Esparto Unified School District --Yolo The proposed project will include the acquisition and construction of a high school, which includes academic and school office buildings, playing fields, a gymnasium, a student union, tennis courts, basketball courts, parking for both students and faculty, a bus parking area, an outdoor instructional amphitheatre, and agricultural sciences area. The first phase of the project would include the construction of facilities to support a student population of 600. Based on the School Facilities Needs Analysis (Government Financial Strategies Inc., 2004), a 600-student campus is projected to support the community for the next 10 years. Title 5, California Code of Regulations, states that education facilities planned by school districts shall be master-planned to provide for maximum site enrollment. EUSD determined that a single site campus would be better for the student population and allow expansion of student services as dictated by growth in the school district over the next 40 to 50 years. In support of the EUSD's long-term planning goals and to avoid the need for an additional high school in the future, the proposed project site could accommodate future expansion of buildings and other facilities capable of supporting up to 2,000 students. Construction of additional facilities will be implemented only on an as-needed basis, in response to community growth. Therefore, the document addresses, on a programmatic EIR level, the impacts of acquisition and construction of a high school capable of accommodating up to 2,000 students, and analyzes on a project-specific level, the impacts associated with constructing facilities to support an initial phase of 600 students. Subsequent phases include an interim phase of 1,000 students and a potential maximum build-out phase of 2,000 students. Current projections indicate that a 1,000-student campus will be needed in approximately 25 years. The proposed site is approximately 64.55 acres. The site plan for the 600-student campus and the 1,000-student campus are similar in layout. Therefore, the 1,000-student layout will serve as the model for the physical impacts of the project for approximately 25 years. The 1,000-student campus is designed with 30.3 acres of open space, including the student agricultural program, and 34.25 acres of school buildings, parking, bus-parking facility, gymnasium, courts, football stadium, and baseball diamond.	FIN

2005082065	Former Gibson Environmental Facility, Port of Redwood City Redwood City, Port of Redwood City--San Mateo The Port intends to complete closure and remediation activities at the former Gibson Environmental, Inc. facility Site. The 8.9-acre Site was a former liquid bulk terminal that was active between 1963 and 1995 and consists of ten aboveground bulk storage tanks, associated pipelines and ancillary equipment and structures and truck loading facilities. Petroleum- and metal-bearing wastes from facility operations have contaminated the shallow soil and shallow groundwater. CEQA Initial Study and Negative Declaration address the activities identified in the Site Closure Plan and the Corrective Measures Study/Remedial Action Plan (CMS/RAP). The Closure Plan activities generally include the removal of the facility tanks, equipment and structures, and the confirmation sampling beneath the Site Regulated Units. The CMS/RAP addresses soil and groundwater remediation, and closure of the Solid Waste Management Units and one Area of Concern. The petroleum-related contaminants in shallow soil and groundwater include predominantly jet fuel, gasoline and diesel, some of which are present as free-phase and residual product.	<b>NOD</b>	
2005082070	Wilton Road Culvert Replacement Project Elk Grove, City of Elk Grove--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0337-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Elk Grove.  Project pertains to the replacement of an existing 60-inch CMP culvert beneath Wilton Road with two 7-foot by 5-foot concrete box culverts or the equivalent hydraulic capacity.	<b>NOD</b>	
2005091030	Elementary School No. 33 Fontana Unified School District Fontana--San Bernardino The proposed project site entails the 12 acres of an approximately 19-acre parcel to develop and operate a 750-student public elementary school that would serve grades kindergarten through five. The proposed school site would be located on the western most 12 acres of the 19 acre parcel.	<b>NOD</b>

2005102040	UCDMC Stockton Boulevard Parking Lot University of California Sacramento--Sacramento The Regents acquired the Sacramento County Hospital in 1973 to develop the UCDMC Sacramento Campus located approximately 17 miles east of the UC Davis Campus. In 1978, The Regents officially named the hospital facility as the University of California, Davis Medical Center. At that time, the existing hospital facility had several seismically deficient buildings and did not have enough space to meet the UCDMC's patient care, educational and research responsibilities. Since then, major construction and remodeling projects have been initiated to transform UCDMC to a state-of-the-art 528-bed regional health care center that serves as the principal clinical teaching and research site for the UC Davis School of Medicine. 2005101034	I-215 Corridor Redevelopment Project Area, Amendment No. 1B - Sun City/Quail Valley Sub-Area Riverside County Redevelopment Agency --Riverside The proposed project will amend the Agency's existing Redevelopment Plan for the I-215 Corridor Project Area to include additional territory.	<b>NOP</b>	11/09/2005
2005101038	General Plan Update San Bernardino County Land Use Services Department --San Bernardino General Plan Update, 13 Community Plans, and Development Code update.	<b>NOP</b>	11/09/2005
2005101044	Lennar Homes-Lincoln & Holder Residential Project Buena Park, City of Buena Park--Orange The Project provides for construction of 131 homes and supporting amenities on an approximately 18-acre site, together with abutting r.o.w. improvements and all necessary supporting utilities improvements/modifications.	<b>NOP</b>	11/09/2005
2005101045	Los Caballos Equestrian Campground Parks and Recreation, Department of --San Diego The proposed project is the reconfiguration of the Los Caballos Equestrian Campground located within the Cuyamaca Rancho State Park. Prior to the 2003 Cedar Fire, the Los Caballos Equestrian Campground provided rustic equestrian camping and recreational experiences for California State Parks visitors over the past five decades. Prior to the fire, the Los Caballos Campground provided 18 campsites and a day use area.	<b>NOP</b>	11/09/2005
2005101047	Pipeline Maintenance Program EIR Santa Clara Valley Water District San Jose, Santa Clara, Morgan Hill, Hollister--Santa Clara, San Benito The Santa Clara Valley Water District conducts routine maintenance on a variety of water conveyance systems. The maintenance activities have in the past been conducted on a case-by-case basis. This Pipeline Maintenance Program (PMP) defines and provides a guide for implementation a program for conducting conveyance system inspection, repair, and preventative maintenance activities in a consistent and environmentally sensitive manner. This document is designed to identify and guide the maintenance procedures for the conveyance systems, including the Bureau of Reclamation (BOR) owned Santa Clara pipelines. The PMP identifies the routine maintenance process, the activities, and defines Best Management Practice (BMPs) to protect the environment. The environmental effects of the PMP will be analyzed in a Program EIR/EA.	<b>NOP</b>	11/09/2005

<b><u>Documents Received on Tuesday, October 11, 2005</u></b>			
2005012077	<p>Barrington Project Brentwood, City of Brentwood--Contra Costa</p> <p>The proposed project involves the development of 494 single family homes. The project includes a Tentative Subdivision Map No. 8548 that subdivides the approximately 160-acre site into 494 single family lots, a 12-acre elementary school site, an approximately 7.8-acre detention basin, a 1.1-acre fire station site, three neighborhood parks totaling approximately 9.3 acres, and public roads and recreation trails. The project includes the Design Review of five distinct neighborhoods with minimum lot sizes ranging from 3,600 to 7,800 square feet and 25 housing models ranging in size from 1,481 square feet to 4,955 square feet. The project includes an amendment to the Planned Development 46 Zone (RZ 04-14) establishing specific development standards for the project site, and the approval of a Development Agreement (DA04-03) which includes provisions for construction of infrastructure extensions and development of public facility improvements as well as applicable reimbursement procedures in accordance with the City's Development Fee Program.</p>	<b>NOD</b>	
2005041159	<p>Location and Development Plan 05-01 Adelanto, City of Adelanto--San Bernardino</p> <p>The proposed project includes the construction of a self-storage complex on 3.08 acres of undeveloped land. The project will result in impacts to Mohave ground squirrel (<i>Spermophilus mohavensis</i>), a state-listed threatened species, necessitating issuance of the above-mentioned incidental take permit.</p>	<b>NOD</b>	
2005082038	<p>Paula Lane Reservoir #2 Project Petaluma, City of Petaluma--Sonoma</p> <p>The major component of the project includes construction of a 1.6-million-gallon, above-grade, welded-steel, potable water reservoir. Other components of the project include installation of chain link perimeter fencing, installation of an irrigation system, and planting vegetation.</p>	<b>NOD</b>	
2005082081	<p>Shayne Final Map Subdivision Humboldt County Community Development Services --Humboldt</p> <p>Approval of a tentative map for a Final Map Subdivision of 1.08 acres into six lots ranging in size from approximately 5,300 to 11,730 square feet. The purpose of the subdivision is to site each of the six existing single-family residences onto its own separate lot. The project requires removal or relocation of structures, including three existing garages, to maintain conformance with development standards. The project requires exemption from Solar Access standards and exception from the California Department of Forestry and Fire Protection to the 30 foot setback for structure defensible space. The lots are served by community water and sewer, and are accessed via Sewell Drive, Madrone Road and Spring Street.</p>	<b>NOD</b>

	will be used as well as a combination of chemicals, depending on species and timing. Chemicals could include Arsenol, Transline, and Glyphosate herbicide products. All locations will be surveyed for rare plants prior to applications.		
2005108242	Wyle Laboratories, Inc. Removal Action Workplan for Soil at the Northwest Area Toxic Substances Control, Department of Norco--Riverside The interim RAW, prepared in accordance with Health and Safety Code section 25356.1(h)(1), includes soil vapor extraction and treatment in the northwest area of the site. Six vapor monitoring wells will be installed on the street and near residences in the vicinity of the existing vapor monitoring wells.	<b>NOE</b>	
2005108243	DeMenno/Kerdoon Environmental Class 1 Permit Modification Toxic Substances Control, Department of Vernon--Los Angeles DeMenno/Kerdoon Environmental (DKE) has recieved a Class 1 Permit Modification to their Hazardous WASTE facility Permit. DKE is replacing one of its processing tanks (Tank E-430) and one filter press (F-502). The tank is a corrugated plate interceptor clarifier with a capacity of 4,564 gallons located in the Wastewater Physical Separation Unit. The replacement unit is smaller that the prior unit. The unit is used for physical separation of oil from wastewaters. The filter press is located in Area A in the same location and containment as the prior unit. It is similar in design to the prior unit and with 10% of its capacity.	<b>NOE</b>	
2005108244	Removal Action Workplan for World Radiator and Air Conditioning Site Toxic Substances Control, Department of Paradise--Butte The proposed project is the approval of a Removal Action Workplan (RAW) prepared to address metals (antimony, arsenic and lead) affected soils found at the World Radiator and Air Conditioning Site (Site). Investigations at the Site found metals at concentrations above the risk-based cleanup levels and are pervasive across the site in the top one foot. The majority of the contamination is found in the upper three feet of soil in most areas of the Site, but it has been found to depths of six feet. Elevated metals were found in soil (less than one foot below ground surface) on adjacent property north of the World Radiator along the fence line.  The Site is currently zoned for industrial land use, therefore, the RAW proposed to cleanup the World Radiator Property appropriate for commercial/industrial uses and the areas outside the World Radiator Property to unrestricted residential standards. The volume of soil proposed for removal is approximately 400 cubic yards. Confirmation soil samples will be collected to verify that the removal action has met the cleanup levels. After the excavation is completed, the Site will be backfilled with clean soil. The soil removal action will take about 45 working days to be completed.  Groundwater will be monitored for two years to confirm effectiveness of the removal action have on the quality of the groundwater at the Site. At the end of the two years, groundwater data will be evaluated. If groundwater exceeds drinking water maximum contaminant levels (MCL's) or background concentrations for the three contaminants, additional measures will need to be taken at the Site. However, removal of contaminated soil would eliminate the source of the contamination and would improve groundwater quality at the Site. Groundwater levels at the Site increase about 10 feet during the rainy season thus resulting groundwater to be in contact with the contaminated soils.	<b>NOE</b>

	Excavated soils will be transported by trucks to an offsite hazardous waste disposal facility. A transportation plan will be developed prior to starting the removal action. The plan will require trucks transporting excavated soil to the offsite disposal facility to cover their trailer with a tarp prior to leaving the Site. The plan will include routes that will be used by trucks to haul excavated soil.		
	The Site will be secured during the implementation of the removal action. Permanent and temporary fencing will be used to prevent unauthorized entry to the Site. During the excavation of contaminated soil, polyethylene plastic sheeting will be fastened on the fence to prevent airborne dust from reaching the residential area.		
2005108245	Replace Septic Tanks at RR # 6 & 7 Parks and Recreation, Department of --Santa Barbara This project will remove and dispose of 2 piece-7500 gallon pre-cast concrete septic tanks at RR#7 and install in the same location 2 new approximately 7500 gallon septic tanks; (2) remove and dispose of 1-5000 gallon pre-cast concrete septic tank and install in the same location a new tank of approximately the same size. The existing dump station will be abandoned in place and filled with dirt. All work completed will comply with Santa Barbara County Environmental Health codes for like facilities.	NOE

2004092101	Point Richmond Shores (Terminal One) City File # 1101112 Richmond, City of Richmond--Contra Costa The proposed project is the development of the Terminal One property in the City of Richmond. The proposed project would consist of 330 for-sale, market rate, podium-based, residential units on approximately 8.91 acres and an approximately 2.39-acre public park and 1.26-acre shoreline band. The proposed project would require City entitlement actions including a request for a General Plan Amendment, Rezoning, Vesting Tentative Map, a Land Disposition Agreement Amendment, street abandonment and development and construction permits.	<b>EIR</b>	11/28/2005
2005031070	Tentative Map No. 16445 Placentia, City of Placentia--Orange The proposed project consists of two subdivided parcels into a one lot subdivision to construct 75 detached condominiums.	<b>EIR</b>	11/28/2005
2005041071	White River Dairy Establishment (PSP 04-093) Tulare County Resource Management Agency --Tulare Special Use Permit (PSP 04-093) and a permit by the California Regional Water Quality Control Board, Central Valley Region, of a Notice of Intent under a General Waste Discharge Order, both to establish a new dairy to accommodate a maximum of 3,500 Holstein milk cows and support stock for a total of 6,037 animal units in a facility covering approximately 154 acres of the 1,637-acre project site.	<b>EIR</b>	11/28/2005
2005101060	Draft RMP and Draft EIS for the Southern Diablo Mountain Range and Central Coast of California Bureau of Land Management Hollister--San Benito The Draft RMP and Draft EIS would provide management guidance for use and protection of the resources managed by the Hollister Field Office. The Hollister Draft RMP and Draft EIS has been developed through a collaborative planning process and considers four alternatives.	<b>EIS</b>	01/12/2006
2005102047	Prezone 2005-01 (East Tuolumne Master Plan) Turlock, City of Turlock--Stanislaus The City of Turlock is preparing a master plan for approximately 100 acres along East Tuolumne Road between North Quincy and North Waring Road preliminary to the annexation (reorganization) and development of the subject area. The East Tuolumne Master Plan (ETMP) is an implementing tool of the Turlock General Plan and is intended to provide a more thorough analysis of the project area to assess land use, circulation, infrastructure and financing issues prior to annexation and development. The proposed East Tuolumne Master Plan is consistent with the General Plan which designates the entire area Very Low Density Residential (up to three dwelling units per acres). The entire project area is located within Turlock's Secondary Sphere of Influence. At buildout, the area could contain up to 200 dwelling units located on 1/3-acre lots. Consistent with the General Plan, a multi-use trail will be located through the Master Plan area and connect Class II bike lanes on North Waring and North Quincy Roads.	<b>MND</b>	11/14/2005

<b><u>Documents Received on Friday, October 14, 2005</u></b>			
2003101150	<p>La Loma Bridge Rehabilitation Replacement Project Pasadena, City of Pasadena--Los Angeles</p> <p>The Public Works Department of the City of Pasadena, in cooperation with Caltrans and the Federal Highway Administration (FHWA), is proposing to improve the existing La Loma Bridge to meet current seismic codes and standards. The 378-foot long reinforced concrete bridge was built in 1914 over the Arroyo Seco, a major tributary to the Los Angeles River. The existing Bridge was listed on the National Register of Historic Places on July 14, 2004. The La Loma Bridge carries two lanes of vehicular traffic, and includes 50-foot wide sidewalks on both sides of the bridge. A retrofit/rehabilitation or replacement of the existing bridge is necessary because of the deteriorated condition of the bridge, which is evidenced by the dilapidated appearance, including spalling (i.e., breaking of concrete into chips or fragments) and falling concrete, and its low sufficiency rating. The City of Pasadena, in cooperation with Caltrans and FHWA, is seeking to rectify these conditions through the use of local funds, SAFETY-LU funds, and funding to be obtained from the Federal Highway Bridge Repair and Rehabilitation (HBRR) Program. Three build alternatives are under consideration: (1) rehabilitation, (2) replacement with a box-girder design and (3) replacement with concrete box-girder bridge with decorative arches. The width for the bridge under each of the alternatives would be 42 feet, which is 4 feet wider than the existing bridge, including two standard 5-foot-wide sidewalks. The rehabilitated or new bridge would continue to provide two traffic lanes, one in each direction. Construction of the proposed project would last approximately 18 months.</p>	EIR	11/28/2005
2004072100	<p>Wharf J-10 Demolition and Improvements Project San Francisco Planning Department San Francisco--San Francisco</p> <p>The proposed project is the demolition of an existing vacant fish processing building and wharf, located on the Fisherman's Wharf waterfront between Hyde and Leavenworth Streets, to abate an existing public health and safety hazard caused by the deteriorated condition of the structure and its potential for collapse. Following demolition, the Port of San Francisco would install guardrails and new riprap (rock to protect the seawall). Existing Port tenants of Wharf J-10 could pursue reuse of the site, including a new fish processing building for use by F. Alioto Fish Company; an outdoor platform for use by California Shellfish Company; and possible Port-sponsored improvements that might include a public fish receiving dock at the east end or west end of Wharf J-10, a second new building for use by the fishing industry, and/or a new floating boat repair dock at Wharf J-10 or at the foot of Leavenworth Street. There are no definitive reuse plans at the present time.</p>	EIR	11/29/2005
2005012128	<p>Hussey Ranch Residential Subdivision Napa, City of Napa--Napa</p> <p>The Hussey Ranch project is a proposed low-density residential development that includes 72 detached single-family homes located on 87.73 acres in the Browns Valley Planning Area at 1061 Partrick Road. As submitted, 47 homes are proposed within the lower development area and 25 homes are proposed in the upper development area of the project site. Home sizes would range between 2,541 +/- square feet and 4,116 +/- square feet for market rate units (exclusive of one custom built home) and would be approximately 1,200 square feet for eight affordable homes proposed to meet the City's inclusionary housing requirements.</p>	EIR	11/28/2005

<b><u>Documents Received on Friday, October 14, 2005</u></b>			
	More than one-half of the site would be preserved in permanent open space, primarily in the upper portion of the site where a custom home is proposed on a 51 +/- acre lot. The proposed project would also include the construction of public and private streets and utilities, and include one primary bridge connecting to Partrick Road and two secondary bridges connecting to Skylark Way and Meadowbrook Lane for pedestrian and vehicular access.		
2005042146	The Globe General Plan Amendment Fremont, City of Fremont--Alameda The project is a request for a General Plan Amendment to change the land use designation of the project site from General Industrial with Commercial Overlay to High Volume Retail in order to develop approximately 440,000 sf of regionally oriented, internationally themed retail and commercial uses. The project site is currently developed with existing commercial buildings, vacant warehouse buildings and vacant commercial buildings.	EIR	11/28/2005
2005062057	Gladding Parkway and Nicolaus Road Overhead Lincoln, City of Lincoln--Placer The proposed project would construct an alternate route around the eastern portion of the downtown Lincoln area in order to (1) relieve areas of congestion within the City and (2) accommodate increasing traffic as the City grows to buildout of the General Plan. The project would include reconstruction of existing travel lanes and installing a median along East Avenue from SR 193 to Ninth Street. At Ninth Street, a new roadway would be constructed and curve west and northwest towards Gladding Road, continuing southwest towards SR 65 where a new overhead (bridge) over SR 65 and UPRR tracks would be constructed. The overhead would connect to Nicolaus Road near the intersection with K Street. The overhead between the eastern and western portions of the City would help reduce the hazards associated with vehicles, emergency vehicles, school buses, and pedestrians crossing State Route 65 and the Union Pacific Railroad tracks. The project would also include underground utility line installation and landscaping.	EIR	11/28/2005
2005012029	Flying Cloud Gaming and Entertainment Facility Buena Vista Rancheria of Me-Wuk Indians of California Ione--Amador The Tribe is proposing to construct a multi-level gaming and entertainment facility on approximately 17-acre portion of the 67.5 acre rancheria. The Total square footage, including the non-gaming area with all auxiliary services and spaces, will encompass approximately 245,405 sf. The facility will include 55,000 sf of gaming including 2,000 slot machines and 80 gaming tables. Additional amenities will include restaurant dining areas, an entertainmnet lounge, a small retail shop, and a multipurpose ballroom, as well as "back of house" areas including surveillance, admin/finannce/accounting offices, maintenance, housekeeping, etc. The proposal includes construction of a multi-level parking garage adjoining the gaming facility providing approximately 3,600 spaces. The parking garage will have nine levels including loading docks, warehouse space and other maintenance and employee space. The tertiary treatment plant will be constructed on-site to treat wastewater. The tribe will purchase potable water from multiple private and public sources off-site in the preliminary stages of facility operation. The tribe is engaged in research and exploration activities for the development of long-term potable water sources.	FIN

2005084003	Table Mountain Rancheria - Fee to Trust Bureau of Indian Affairs, Sacramento Area --Fresno No change in land use is currently proposed; the immediate purpose is for the Tribe to be able to exercise its Tribal Sovereign powers and to protect cultural resources located on the parcel.	<b>FON</b>	11/14/2005
2004052015	Smith (Russell) Minor Subdivision and Special Permit Humboldt County Community Development Services --Humboldt A Parcel Map Subdivision of an approximately 21,450 sq. ft. parcel into three parcels. Proposed Parcel 1 will be 5,145 sq. ft., proposed Parcel 2 will be 6,370 sq. ft., and proposed Parcel 3 will be 7,335 sq. ft. An approximately 240 sq. ft. building and a concrete slab developed across the property lines of proposed Parcel 1 and 2 will be removed as a part of this project. Proposed Parcel 3 is currently being developed with a single-family residence. An exception to the road width and lot frontage standards is requested pursuant to §325-9, HCC. Water and sewer services will be provided by the McKinleyville Community Services District.	<b>MND</b>	11/14/2005
2005101064	Emerald Well Project Health Services, Department of --San Bernardino Golden State Water Company (GSWC) proposes to construct, own, and operate a water well, pipeline, associated well facilities, improvements to the gravel road leading to the well site, the addition of a circuit to an existing overhead 12 kV power line located near the well, and possibly upgrading the existing transformers.	<b>MND</b>	11/14/2005
2005101067	TPM 20748, Log No. 03-03-006; Para Mi Co. San Diego County Department of Planning and Land Use --San Diego The project proposes the subdivision of a 10.7-acre parcel into 3 parcels subject to the Regional Land Use Element 1.3 Estate Development (EDA). The proposed project has gross parcel sizes ranging from 3.0 to 4.6 acres.	<b>MND</b>	11/14/2005
2005101068	Middle School No. 9 Fontana Unified School District Fontana--San Bernardino The project proposes to construct a new middle school on a 24.9-acre parcel in the City of Fontana.	<b>MND</b>	11/14/2005
2005102052	ARCO AM-PM Santa Rosa, City of Santa Rosa--Sonoma New gas station, car wash, 8 pumps with canopy, convenience store.	<b>MND</b>	11/14/2005
2005102053	Iron Rock 6 Elk Grove, City of Elk Grove--Sacramento The project consists of a Tentative Parcel Map to subdivide two parcels into six industrial parcels. Kamps Propane, a new propane storage and distribution plant, is proposed to be developed on Lot 3 of the project site.	<b>MND</b>	11/14/2005

## CEQA Daily Log

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, October 14, 2005</u></b>			
2005102058	<p>Grant Line Road Widening Project Elk Grove, City of Elk Grove--Sacramento</p> <p>The proposed project would widen Grant Line Road from two to six lanes between Survey Road and Waterman Road from two to four lanes between Waterman Road and just northeast of Bradshaw Road. The Grant Line Road/Waterman Road and Grant Line Road/Bradshaw Road intersections would be realigned for safer turning movements and visibility, and traffic signals would be installed at these locations. The existing at-grade UPRR crossing (UPRR Grant Line Road, M.P. 54.00) would also be replaced with a grade-separated overhead structure. A new access road to Suburban Propane would be provided from East Stockton Boulevard to the north side of the Suburban Propane property.</p> <p>A 6-foot bicycle and a 6-foot sidewalk would be provided both north and south of the roadway between Survey Road and Waterman Road and along the west side of Waterman Road within the project limits. East of Waterman Road, an eight-foot striped shoulder would accommodate bicycles traveling along Grant Line Road. Additionally, crosswalks would be installed at the Survey Road/Grant Line Road, Waterman Road/Grant Line Road, and Bradshaw Road/Grant Line Road intersections to provide safe bicycle and pedestrian crossing.</p> <p>Two alternatives are being proposed for the Grant Line Road Widening Project. Both alternatives would widen Grant Line Road to the north, and would require right of way along the north side of Grant Line Road, for roadway widening, realignment of Waterman Road and Bradshaw Road and improvements to Mosher Road. These alternatives would also require some right of way south of the existing roadway to accommodate roadway tapering from six to four lanes, and an easement for the replanting and other landscaping improvements. Alternative 2 would vary from Alternative 1 in that would contain a median from east of the existing Sonoma Creek residential development to the east of the Grant Line Nursery to avoid several of the larger oak trees.</p>	<b>MND</b>	11/14/2005
2005102059	<p>Elk Grove Unified School District Miwok Village Elementary School Elk Grove Unified School District Elk Grove--Sacramento</p> <p>The proposed project would involve the design, construction, and operation of a K through 6th grade elementary school within a 10.7-acre site at the intersection of Gilliam Drive and Dorsey Drive. The proposed elementary school site would have 59,000 sq. ft. of buildings and would offer classrooms, administration buildings, turf fields, hardcourts, multi-purpose facilities, and an on-site library for student use. The attendance boundary for the proposed elementary school would be Poppy Ridge Road to the north, Franklin Boulevard to the west, Bilby Road to the south and an unnamed road to the east. A total of 107 parking spaces would be included on-site for staff and visitor use. The proposed project would consist of seven permanent single-story structures with 41 permanent classrooms, up to 10 portable classroom units, and a portable workroom. Building heights would range between 18 and 29 feet. Vehicular and pedestrian access to the site would be available via Gilliam Street and Dorsey Drive. The campus buildings would be connected internally by open walkways and landscaping features. The proposed project is scheduled to begin construction in the fall of 2006 and would be completed by the fall of 2007 in time for the beginning of the 2007-2008 school year.</p>	<b>MND</b>	11/14/2005

<b><u>Documents Received on Friday, October 14, 2005</u></b>			
2005102054	Bayfront 2 Project Eureka, City of Eureka--Humboldt The proposed project would construct a mixed-use four-story building on the site that would provide approximately 37,800 square feet (sq. ft.) of leasable space. The new building would be constructed on the northern portion of the site, with off-street parking situated to the south of the building. Proposed on-site uses would include about 8,660 sq. ft. of ground floor retail space, about 10,320 sq. ft. of office space on the second floor, and up to 16 residential units on the third and fourth floors. The project would also include 25 surface parking spaces, four of which would be in a covered parking area, and a loading area, accessible from F Street.	<b>NOP</b>	11/14/2005
2005102057	Ripon Tower Center Ripon, City of Ripon--San Joaquin The project includes the development of a shopping center that would include one or more major retail tenants, a fuel center, and six additional retail pads. There is also a 1.22-acre out parcel that is not being proposed for development at this time.	<b>NOP</b>	11/14/2005
2005101061	Brajkovich Minor Use Permit DRC2004-00077 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Thomas Brajkovich for a Minor Use Permit to allow five mixed use buildings ranging in size from 4,800 square feet to 5,600 square feet on five existing lots, resulting in the disturbance of approximately 25,000 square feet on 5 existing parcels. The proposed project is within the Commercial Retail and Commercial Service land use categories and is located on the east side of the intersection of Mission Street and 15th Street, in the community of San Miguel. The site is in the Salinas River planning area.	<b>Neg</b>	11/14/2005
2005101062	SBC Development Plan and Variance DRC2004-00060 & DRC2005-00041 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by SBC for a Development Plan and Variance to allow a new emergency generator in support of an existing telephone switching facility located in the front setback. The project will result in the disturbance of approximately 200 square feet of a 6000 square foot parcel. The proposed project is within the Residential Single Family land use category and is located at 65 13th Street in the community of Cayucos. The site is in the Estero planning area.	<b>Neg</b>	11/14/2005
2005101063	Hilton Parcel Map; S030032P San Luis Obispo County --San Luis Obispo Proposal to subdivide an existing 10-acre parcel into two 5.0 acre parcels for the purpose of sale and/or development.	<b>Neg</b>	11/14/2005
2005101065	El Mirage Elementary School Project Adelanto School District Adelanto--San Bernardino The District proposes to construct a new elementary school on 10 acres of vacant Desert land to meet expected enrollment growth due to projected new residential development. The site is within a described area of San Bernardino County, State of California, South of El Mirage Road, between St. Basil Avenue, and St. Anthony Avenue.	<b>Neg</b>	11/14/2005

	City's service area. The City and MID have also approved and entered into an amended and restated Treatment and Delivery Agreement for the Phase Two Expansion of the MRWTP.		
	The Phase Two project includes two main components: (1) the expansion of the MRWTP, which would allow MID to provide an additional 33,600 acre-feet annually (afa) of treated domestic water to the City, and (2) the construction of downstream facilities within the City, including storage reservoirs, pump stations, transmission and distribution pipelines, and regulating valves.		
2004052084	Red Hill Park - Residential San Anselmo, City of San Anselmo--Marin Rezoning, design review, lot line relocation: 2 single family dwellings.	<b>NOD</b>	
2004091082	Well 7991-1 Arsenic Removal System Coachella Valley Water District --Riverside Construction and operation of a 2.88 mgd capacity arsenic removal system and auxillary pipelines on 0.5 acres at existing District Well 7991-1 to reduce arsenic concentrations to meet drinking water requirements. In addition, a 700 cu yd percolation/evaporation pond for well blow-off water would be constructed on the site with connection to underlying tile drains. The treated, nonhazardous brine waste would be hauled for discharge to a nonreclaimable waste pipeline, the Santa Ana Regional Interceptor. The coagulated brine waste would be disposed of properly at a Class I hazardous waste landfill. Construction duration would be 7 weeks.	<b>NOD</b>	
2005062106	Pippo Rezoning Z-04-02 Solano County --Solano To rezone approximately 92 acres of seasonal grazing land from "A-20" Exclusive Agriculture to "RR-2.5" Rural Residential for future subdivision.	<b>NOD</b>	
2005071087	San Francisquito Canyon Blow-Off Structure Access Road and Pad Reconstruction Project Metropolitan Water District of Southern California Santa Clarita--Los Angeles The San Francisquito Blow-off Structure is one of six blowoff structures along the Foothill Feeder pipeline. The Foothill Feeder is a 201-inch diameter pre-stressed concrete cylinder pipeline (PCCP) that was constructed in 1968. In March 2005, electromagnetic inspections of the Foothill Feeder identified three distressed pipe sections that require prompt repair. In order to perform repairs on the Foothill Feeder, access to the San Francisquito blow-off structure is required to dewater a portion of the pipeline. The San Francisquito blow-off structure is used to drain by gravity a portion of the Foothill Feeder into San Francisquito Creek. The 2004/2005 winter storms produced high flows in San Francisquito Creek, which damaged the 12-foot wide access road and a protective slab surrounding the blow-off structure, leaving the structure inaccessible. Metropolitan needs to periodically access the structure to maintain valves and to dewater the pipeline for planned and emergency shutdowns. In order for Metropolitan to continue necessary operational activities, inspections, maintenance, and repairs of this pipeline, the access road and pad must be rebuilt.	<b>NOD</b>
